

Player with initiative starts all sequences

**Primary OP Selection:** During the first Turning Point (TP), each player secretly selects one of the above OPs to be their primary OP. Which OP was Primary is revealed, and VP scored, at the end of the battle (though the OP itself may have already been revealed).

- **1. SETUP** -
  - Select Kill Teams.
  - Determine Killzone and setup/specify terrain.
  - Determine CRIT OP and set Objective markers on floor (except Bheta-Decima).
  - Roll off, winner assigns initiative, and the selected player picks their drop zone.
- **2. SELECT OPERATIVES** -
  - Secretly select Operatives then reveal together.
  - Secretly select up to 4 Equipment options (unique selections) and reveal together.
  - Players gain 2CP each.
  - Secretly select one TAC OP from your Team's Archetype.
- **3. SETUP EQUIPMENT & OPERATIVES** -
  - Alternate setting equipment by item, not option.
  - Alternate setting up Operatives in 3rds (rounding up) within your drop zone and with a CONCEAL order.

- #### - 4. SCOUTING -
- Secretly select 1 pre-game scouting option:
- 1. Equip:** select 1 NEW additional equipment option.
  - 2. Play:** Use a strategy play in Strategic phase for OCP.
  - 3. Reposition:** "Reposition" one Operative who is wholly within drop zone for free. Must finish within 3" of your drop zone.
- Reveal simultaneously. Initiative resolves first.
- #### - 5. BATTLE -
- First TP initiative is decided by the SCOUTING options: 1 beats 2, 2 beats 3, 3 beats 1. If options are the same, the player who didn't have initiative in SETUP decides initiative. ▲

- **- 5. BATTLE (Cont.) -**
- Strategic Gambit: each player secretly selects one OP [1. CRIT, 2. KILL, 3. TAC]
- Max 6VP from each OP.
- **- 6. TURNING POINTS (TP) (4 per battle) -**
- STRATEGY PHASE**
- Determine Initiative: From the second TP onwards, players roll for initiative. On a tie, alternate from the previous TP.
- Each TP player gets 1 CP: The player without initiative gets 1 extra CP [2 total].
- Use Strategic Gambits
- FIREFIGHT PHASE**
- Alternate picking Operatives.
- Pick Order and do valid actions up to APL.
- **- 7. BATTLE END -**
- After 4 TPs, even if a Team is killed.
- Primary OP revealed and score\*1.5 (rounding up).
- Most VP wins, or draw.

Special Rule	Description
Accurate x	Retain up to x attack dice as NORMAL successes without rolling. Stacking "Accurate x"s are treated as "Accurate 2" (this takes precedence).
Balanced	You can re-roll one of your attack dice.
Blast x	The target you select is the primary target. Enemies within x" and visible to your primary target are Secondary targets (ignores conceal order). Secondary targets are in Cover and/or obscured IF THE PRIMARY TARGET WAS. After Shooting the primary target, shoot with this weapon against each secondary target, one target at a time, in an order of your choosing.
Brutal	Your opponent can only block with Crits.
Ceaseless	You can re-roll any of your attack dice result of ONE RESULT (e.g. all 2s).
Devastating x	Each retained Crit immediately inflicts x damage as well as being retained as usual. If the rule starts with a distance (e.g. 1" Devastating x), inflict x damage on that Operative AND each other Operative visible to and within x.
Heavy /(x)/	An Operative cannot use this weapon in an activation in which it moved, or move after using this weapon. If the rule is Heavy (x), only (x) is allowed (e.g. Heavy (Dash only)). Has NO EFFECT on Guard.
Hot	AFTER an Operative uses this weapon, roll one D6. Rolls less than the weapon's Hit stat inflict damage equal to the roll*2. Shooting actions with multiple targets trigger one D6 roll (e.g. after all Blast targets resolved).
Lethal x+	Rolls of x or more are Crits.
Limited x	Can only be used x times. Actions that can have multiple targets count as 1 use (e.g. Blast).
Piercing X /Crits/	The defender collects x less defence dice. If the rule is "Piercing Crits x", the effect only applies if any Crit are retained.
Punishing	If you retain any Crits, you can retain one failed roll as a successful normal hit.
Range x	Only Operatives within x of the shooter can be valid targets.
Relentless	You can re-roll ANY of your attack dice.
Rending	If you retain any Crits, one of your normal Hits can be retained as a Crit.
Saturate	The defender cannot retain Cover saves.
Seek /light/	VISIBLE Operatives cannot use terrain for Cover. If the rule is Seek Light, Operatives cannot use Light terrain for Cover. Whilst this can allow such Operatives to be targeted, any Cover saves can still be retained.
Severe	If you roll no Crits, you can change one normal hit to a Crit. Crit modifiers (e.g. Devastating, Piercing Crits, etc.) apply to this Crit.
Shock	The first time you strike with a Crit in each SEQUENCE, discard one of your opponent's unresolved normal Hits (or a Crit if there are no normal Hits).
Silent	Operative can Shoot while it has a Conceal order.
Stun	If you RETAIN any Crits, subtract 1 from the APL of the target enemy Operative until the end of its next activation.
Torrent x	Select a valid target as normal as the primary target, THEN select any number of other valid targets within x of the first valid target as secondary targets. Shoot targets one by one in an order of your choosing.
