Special Rule	Actions		
Accurate x - Retain up to x attack dice as NORMAL successes without rolling. Stacking “Accurate x”s are treated as “Accurate 2” (this takes precedence).	Reposition – 1AP Move up to the Operative’s Move Characteristic in straight line increments of 1”, rounding up each 1”. Cannot move within Control Range of an enemy unless they are already in Control Range of a friendly and cannot finish the move within Control Range of an enemy. Cannot perform this action in the same activation that the Operative performed a Fall Back or Charge AND cannot perform this action while in Control Range of an enemy.		
Balanced - You can re-roll one of your attack dice.	Dash – 1AP See “Reposition” but replace “movement characteristic” with 3” AND cannot be used to climb but can be used after Fall Back. Cannot be performed while in Control Range of an enemy.		
Blast x - The target you select is the primary target. Enemies within x” and visible to your primary target are Secondary targets (ignores conceal order). Secondary targets are in Cover and/or obscured IF THE PRIMARY TARGET WAS. After Shooting the primary target, shoot with this weapon against each secondary target, one target at a time, in an order of your choosing.	Fall Back – 2AP See “Reposition” except the Operative can move within Control Range of an enemy Operative but cannot finish in Control Range.		
Brutal - Your opponent can only block with Crits.	Charge – 1AP See “Reposition” but add 2” to the “movement characteristic” AND the Operative MUST finish the move within Control Range of the first enemy Operative that it enters the Control Range of IF that enemy Operative is not in Control Range of a friendly Operative.		
Ceaseless - You can re-roll any of your attack dice result of ONE RESULT (e.g. all 2s).	Shoot – 1AP Shoot with the active Operative using the Shoot sequence. The active Operative is the attacker, target is defender. Cannot be performed with a conceal order and/or while within Control Range of an enemy. Select valid target and roll attack dice, enemy rolls defence dice, assign attack damage/effects.		
Devastating x - Each retained Crit immediately inflicts x damage as well as being retained as usual. If the rule starts with a distance (e.g. 1” Devastating x), inflict x damage on that Operative AND each other Operative visible to and within x.	Fight – 1AP Must be within Control Range. IMPROVE hit stat by 1 for every friendly also within Control Range of the target AND no other enemy. Both roll attack dice. Alternate Strike or Block (Only Crits can block Crits).		
Heavy/(x)/ - An Operative cannot use this weapon in an activation in which it moved, or move after using this weapon. If the rule is Heavy (x), only (x) is allowed (e.g. Heavy (Dash only)). Has NO EFFECT on Guard.	Pick Up – 1AP Remove a marker that the active Operative controls. That Operative is “carrying, contesting, and controlling” that marker. Cannot be performed while in Control Range of an enemy or while already carrying.		
Hot - AFTER an Operative uses this weapon, roll one D6. Rolls less than the weapon’s Hit stat inflict damage equal to the roll*2. Shooting actions with multiple targets trigger one D6 roll (e.g. after all Blast targets resolved).	Place Down – 1AP Place a marker the active Operative is carrying within it’s Control Range. When incapacitated, a “carrying” Operative MUST perform this action for OAP. Cannot be performed in the same activation as a Pick Up action.		
Lethal x - Rolls of x or more are Crits.	Counteract – When you would activate an Operative, but have no ready Operatives left, and your opponent still has ready Operatives to activate: you can select a expended friendly Operative with an ENGAGE order to perform a 1AP action for free. Only once per Operative per TP until your opponent has no active Operatives left to activate. Cannot move greater than 2” while counteracting.		
Limited x - Can only be used x times. Actions that can have multiple targets count as 1 use (e.g. Blast).	Pass – Can be repeated within an activation - 1AP		
Piercing X/Crits/ - The defender collects x less defence dice. If the rule is “Piercing Crits x”, the effect only applies if any Crit are retained.		Operative is engaged.	Engaged
Punishing - If you retain any Crits, you can retain one failed roll as a successful normal hit.		Operative is concealed.	Concealed
Range x - Only Operatives within x of the shooter can be valid targets.		Re-Roll Attack/Defence Dice for 1CP.	CP Re-Roll
Relentless - You can re-roll ANY of your attack dice.		Wounds below 50% = -1 to hit AND -2” to Move stat.	Injured
Rending - If you retain any Crits, one of your normal Hits can be retained as a Crit.	THE Kill Team 24 Cheat Sheet Vers. 1.2 by /u/DumeSleighter, Based on the original by /u/ChronoDK – updates at GitHub/krones9000/KT24CheatSheet		
Saturate - The defender cannot retain Cover saves.			
Seek/light/ - VISIBLE Operatives cannot use terrain for Cover. If the rule is Seek Light, Operatives cannot use Light terrain for Cover. Whilst this can allow such Operatives to be targeted, any Cover saves can still be retained.			
Severe - If you roll no Crits, you can change one normal hit to a Crit. Crit modifiers (e.g. Devastating, Piercing Crits, etc.) apply to this Crit.			
Shock - The first time you strike with a Crit in each SEQUENCE, discard one of your opponent’s unresolved normal Hits (or a Crit if there are no normal Hits).			
Silent - Operative can Shoot while it has a Conceal order.			
Stun - If you RETAIN any Crits, subtract 1 from the APL of the target enemy Operative until the end of its next activation.			
Torrent x - Select a valid target as normal as the primary target, THEN select any number of other valid targets within x of the first valid target as secondary targets. Shoot targets one by one in an order of your choosing.
